

COMPSCI 111/111G

LaTeX 1

1. What is the difference between TeX and LaTeX?
2. Explain the difference between three full stops in a row and the `\ldots` command.
3. Can LaTeX be described as a WYSIWYG application? Explain your answer.
4. How many different types of dashes can be used in LaTeX?
5. Write the LaTeX code used to produce this document:

The World Wide Web

S. Student

2017

1 Introduction

The World Wide Web has moved from being a platform for use by researchers to something that is *essential* to our everyday lives¹.

2 Protocols

The TCP protocol is used to transport data from source to destination.

TCP = transmission control protocol

The IP protocol is based on the end-to-end principle.
