

COMPSCI 715 Part 2

SIGGRAPH Project Presentations and Reports

Presentations

- NEXT WEEK starting Wednesday (10th, 11th & 15th)
- Format:
 - 20 min presentation
 - 5 min question time
- Not everyone has to speak but everyone should be involved in the presentation

Presentations - Content

- Introduction to the topic and related work
- Details of the method used
- Implementation Details & DEMO!
- Results
- Limitations (in both the paper and your implementation)
- Conclusion

Presentations

- Intended Audience
 - Those familiar with graphics but not necessarily the exact area being presented
- NB: You are expected to be there for the other presentations and if possible think of questions to ask the presenters

Report

- Due last weekend of the semester (Oct 22nd)
- Between 15-20 pages (flexible)

Report - Format

- Format:
 - Formal writing
 - Scientific Paper styled presentation
 - Consistent referencing format

Report - Contents

- Literature Review in the area studied
- Method
- Implementation Details
- Results / Evaluation
- Discussion
- Limitations / Future Work (both of the authors and your work)

Report - Contents

- What's not needed:
 - Pages of code!
 - (Although if you think it necessary this can be included as an Appendix)

Report - Submission

- Nominated member of the group submits pdf version of report
- Each group member emails the following:
 - A sentence on what you gained from the project
 - A sentence on what you think could be done better
 - A statement on whether you agree with the mark for all members of the group being the same (or not)

Presentations - Submission

- Submit the slides to the ADB along with the final report
- Submit the code / implementation along with the final report
